PROFESSIONAL SUMMARY

Adaptive and results-oriented finance student with a combined background in **finance and technology**. Proven expertise in **financial planning**, **client relationship management** and **data analysis**. Adept at bridging the gap between technology and finance to enable data-driven decisions. Experienced in leadership roles and managing diverse teams.

TECHNICAL SKILLS

- Financial Planning - Wealth creation & protection
- Monitoring & Analysis using **Dynatrace**
- Core **Java**
- Data Analysis using **SQL & RDBMS**
- Data Visualization using **Excel**
- Microsoft **Azure Data** Fundamentals

PROFESSIONAL EXPERIENCE

Financial Planner, Neovision Fininvest

June 2024 - August 2024

- Demonstrated strong **sales and client relationship** management by successfully closing a **₹1 lakh** health insurance deal.
- Onboarded new clients by facilitating the opening of Demat accounts.

Software Analyst II, DXC Technology

February 2022 - May 2024

- As a passionate Software Analyst, I supported vital applications for global companies like Xuber and Bolero, ensuring smooth operations for our multinational clients. My role involved ensuring seamless weekly **patching for Bolero** and overseeing critical **month-end** processing for **Xuber**.
- I was committed to team growth, actively training new colleagues and developing clear, Standard Operating Procedures (**SOPs**) to enhance efficiency and knowledge sharing within our team. I'm proud to have been recognized for my contributions with the prestigious **DXC Champs Award in 2023**.
